SO LÉ

YOUR NO.1 GO-TO
DEFEATHERING PLUCKER

**KENNWU MANUFACTURING (M)
SDN. BHD.**

**durable,
economical,
quality,
efficient**

With 30 plus years in manufacturing rubber plucker fingers for poultry de-feathering, we have established the long-trusted brand- SOLÉ.

Made to be compatible with de-feathering equipments like such as Meyn, Linco, Foodmate, Marel, Bayle and Systemate, we ensure our rubber plucker fingers serve our international clients specifically for their needs.

SOLÉ

**THE NO.1

PLUCKER FINGER
IN THE MARKET**

colour coded accordingly to hardness.

Different de-feathering of different poultry types and size requires plucker fingers of different hardness to ensure efficiency and accuracy.

Our plucker fingers are all colour-coded with accordance to their hardness- specifically in black, green and red. We offer custom-colour as well for all models to help meet your unique brand-requirements.
